PROJECTS

Responsive Social Platform UI

(<https://codepen.io/Coding-Dave/pen/dyJdzWK>)

A social media interface I create that resembles Facebook, but with way more eye-catching features and smoother transitions between timeline navigation.

3D Card

(<https://codepen.io/Coding-Dave/pen/jOYZLYq>)

A fun project I made, it's just a card image, but it can be rotated 180 degrees with the use of your mouse cursor.

Vacation Home Website with Animated Slider

(<https://codepen.io/Coding-Dave/pen/XWVZaOV>)

A very interactive home page with a responsive animated slider to showcase different parts of this vacation home.
